

3. Creating a Class Timetable Using HTML Tables

Use table, rows, columns, table headings, caption, rowspan, colspan, border, cellpadding, and cellspacing.

Program:

```
<!DOCTYPE html>
```

```
<html>
```

```
<head>
```

```
    <title>Class Timetable</title>
```

```
</head>
```

```
<body bgcolor="lightcyan">
```

```
    <center>
```

```
        <h1><font color="darkblue"> 📅 Class Timetable</font></h1>
```

```
    <table border="3" cellpadding="12" cellspacing="5">
```

```
        <caption><b>III Year B.Tech Information Technology - Weekly  
Timetable</b></caption>
```

```
        <tr bgcolor="orange">
